Engineered for  
**comfort.**

Designed for  
**performance.**

# COMFORT REDEFINED

Give your cows the comfort they deserve —  
and see the results in your milk tank

Promat's Comfort Mat is the ultimate solution for healthy, high-performing cows. It is the only bedding solution on the market featuring a 3-inch high-density memory-foam pad, engineered to contour to each cow's unique shape. Our high-density comfort pad delivers exceptional impact absorption, proven durability, and industry-leading comfort your cows can feel with every step and every rest.

## COMFORT MAT SYSTEM COMPONENTS

01

### TOP COVERS

**Durable. Easy to clean.** Engineered for traction and moisture protection, it works in harmony with the foam to deliver increased durability, long-lasting performance, and comfort.

Promat's top covers offer industry-leading flexibility without cracking, drying, or becoming slippery; keeping cows sure-footed and comfortable.

**Available Options:**

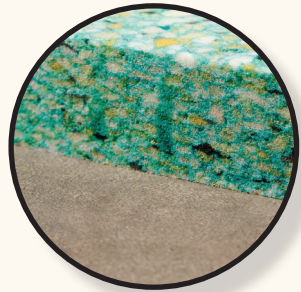

- **Natural Rubber-Impregnated Top Cover (HRC):** Reinforced with ultra-durable fabric. Fully waterproof.
- **Solid Rubber Top Cover:** Diamond-pattern traction with fabric scrim for extra strength and durability. Also waterproof.

02

### 3" HIGH-DENSITY FOAM PAD

**Choose the foam layout that fits your barn setup:**

- **3" Sloped (Free Stall):** Slopes from 3" to 2" over the last 18", towards the back of the stall, for easier cleaning and liquid drainage.
- **3" Straight Edge (Free Stall or Tie Stall):** Uniform thickness across the bed.

03

### MOISTURE BARRIER BAGS

Plastic liner preserves foam integrity and extends product life.

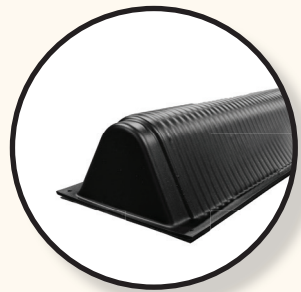

04

### POLY PILLOW

**Highly recommended for all free stall barns.**

Helps cows lie in proper position to keep stalls cleaner and drier. Curved design adds comfort while allowing for natural movement and sloped drainage.

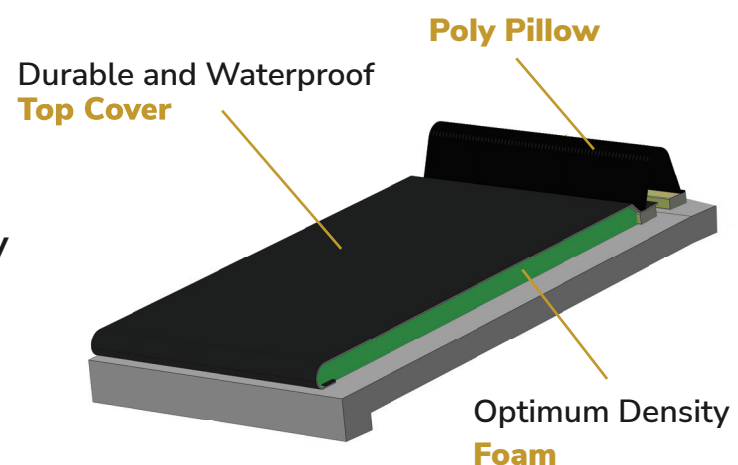

## WHY COMFORT MATTERS

### Cow Health, Herd Performance, and Productivity

A comfortable cow is a healthier, more productive cow. The Comfort Mat encourages your herd to lie down longer, boosting milk yield and reducing health issues.

## PROVEN ROI FOR PRODUCERS

**Better comfort means better performance. More rest, more return.**

Comfort Mat delivers long-term savings through durability, reduced labour, and healthier cows. Invest in comfort that pays off: the advanced engineering of Comfort Mat helps boost herd health and your farm's bottom line.

## PRODUCER BENEFITS

- Increased lying time = more milk production
- Lower vet bills from cleaner, healthier cows
- Long-lasting foam keeps cows comfortable for years
- Reduced bedding use and labour with an easy-clean surface
- Lower total cost of ownership with fewer replacements over time

## COW COMFORT & HEALTH BENEFITS

- Pressure-relieving memory foam improves circulation and joint health
- The rubber cover and foam together create optimal footing for superior stall traction
- Cleaner udders, better lying posture, and reduced risk of mastitis
- Supports natural movement, helping cows rise and rest with ease

# WHAT THE INDUSTRY IS SAYING

**Cow comfort matters because a comfortable cow makes milk. And when a cow makes milk, I make money, and that's kind of the goal. We milk about 280 cows and installed the Comfort Mat with 3 inch foam by Promat between 10 and 12 years ago. The foam stays soft and squishy, and the cows seem to like it. Their hocks look good. If these mats do wear out, hopefully in another 15 years, I would install Comfort Mat again.**

Sytse Falkena

**Six years ago, we installed 6 stalls of Comfort Mat. We noticed quickly that cows would wait to fill the Comfort Mat stalls first. Then we knew we had to do the whole barn. We experienced a 2 litre (1/2 gal) increase within a month, along with hock improvements. The cows are lying down constantly.**
