Dual Comfort Mat

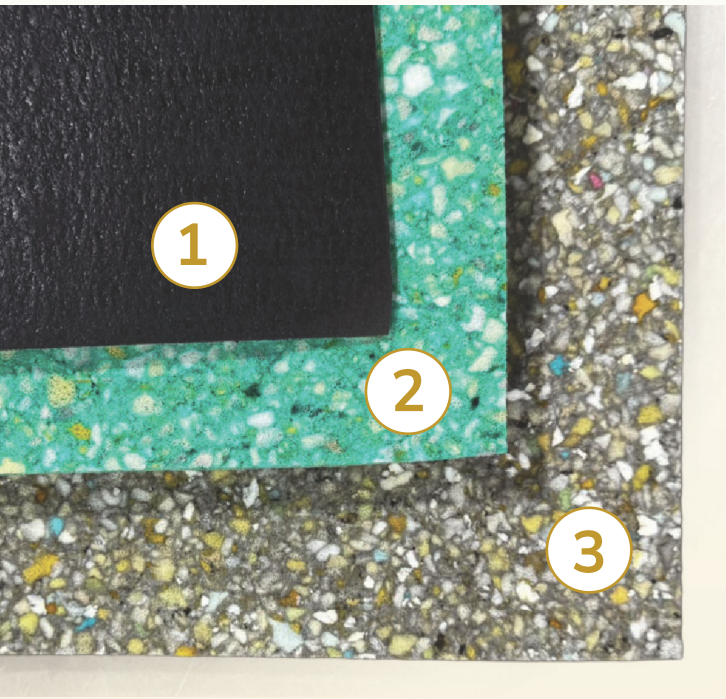

Introducing the Dual Comfort Mat. Engineered with two layers of durable foam to deliver impact absorption and consistent cushioning. Tough enough to absorb the impact of your herd's knees, yet soft enough to provide a gentle, comfortable landing, the Dual Comfort Mat helps reduce pressure on hocks, knees, and joints.

Designed to encourage your herd to rest longer and more comfortably, the Dual Comfort Mat supports improved cow comfort.

Features & Specs

- Dual-Foam System: Combines the benefits of two different foam densities for enhanced comfort, pressure relief, and shock absorption.
- Two layers of high-durability European memory foam to provide unsurpassed levels of softness and comfort.
- Mattresses are 39" wide by 66" long
- Plastic moisture barrier maximizes foam longevity

Dual foam layers designed to work together for enhanced cushioning and impact protection.

System Components:

1

Top Covers

- Promat's HRC, or GRC covers along with our Promat Plus solid rubber covers deliver industry-leading flexibility, footing, and stability.
- All providing an easy-to-clean surface, long-life durability and unsurpassed comfort for your cows.

2

Top Layer – Pressure-Relieving Foam

- 1.5" (38 mm) thick
- Density: 140 (provides an extra level of comfort when the cow is lying down)
- Helps promote improved circulation and blood flow
- Reduces strain on pressure points
- Provides extra traction in the stall for laying down and standing up

3

Bottom Layer – Shock-Absorbing Foam

- 1.5" (38 mm) thick
- Density: 180
- Durable enough to absorb the impact of knees
- Soft enough to provide a gentle, comfortable landing
