

PASTURE MAT™

**Incredible comfort
for your cows.**

COMFORT THAT MIMICS NATURE

Dairy farmers have been relying on Pasture Mat™ to support healthier, more comfortable cows for decades in both tie-stall and free-stall barns.

The core of Pasture Mat™ is our rubber crumb-filled mattress system, engineered to cushion joints and reduce pressure points where cows need it most. Interior baffles keep the crumb evenly distributed across the mat, so it won't spread or dish out. This equates to consistent support that helps reduce hock injuries, knee stress, and lameness – keeping your herd healthier and more productive.

With over 30 years of experience helping dairy producers around the world maximize herd performance through comfort-engineered bedding and mattress systems, Promat continues to innovate with the addition of an optimum-density comfort pad for even greater softness and support.

PASTURE MAT™ SYSTEM COMPONENTS

01

RUBBER CRUMB FILLED MATTRESS

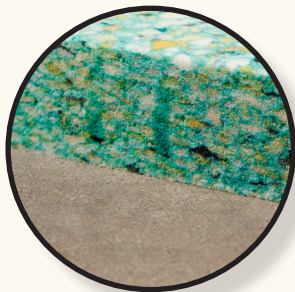

Interior baffles secure crumb in place to eliminate spreading, shifting, and dishing out. This mattress provides excellent softness and force absorption due to three primary factors: the softness of the crumb pieces, shape of the crumb, and the spaces between each piece of crumb. All these factors work together to allow the mattress to absorb and dissipate repetitive force. This layer provides an elevated and consistent base to keep proper stall dimensions.

02

COMFORT PAD

An optimum-density and high-durability European memory foam to provide an unsurpassed level of softness and comfort. Available in ¾" and 1 ½" thicknesses.

03

TOP COVER

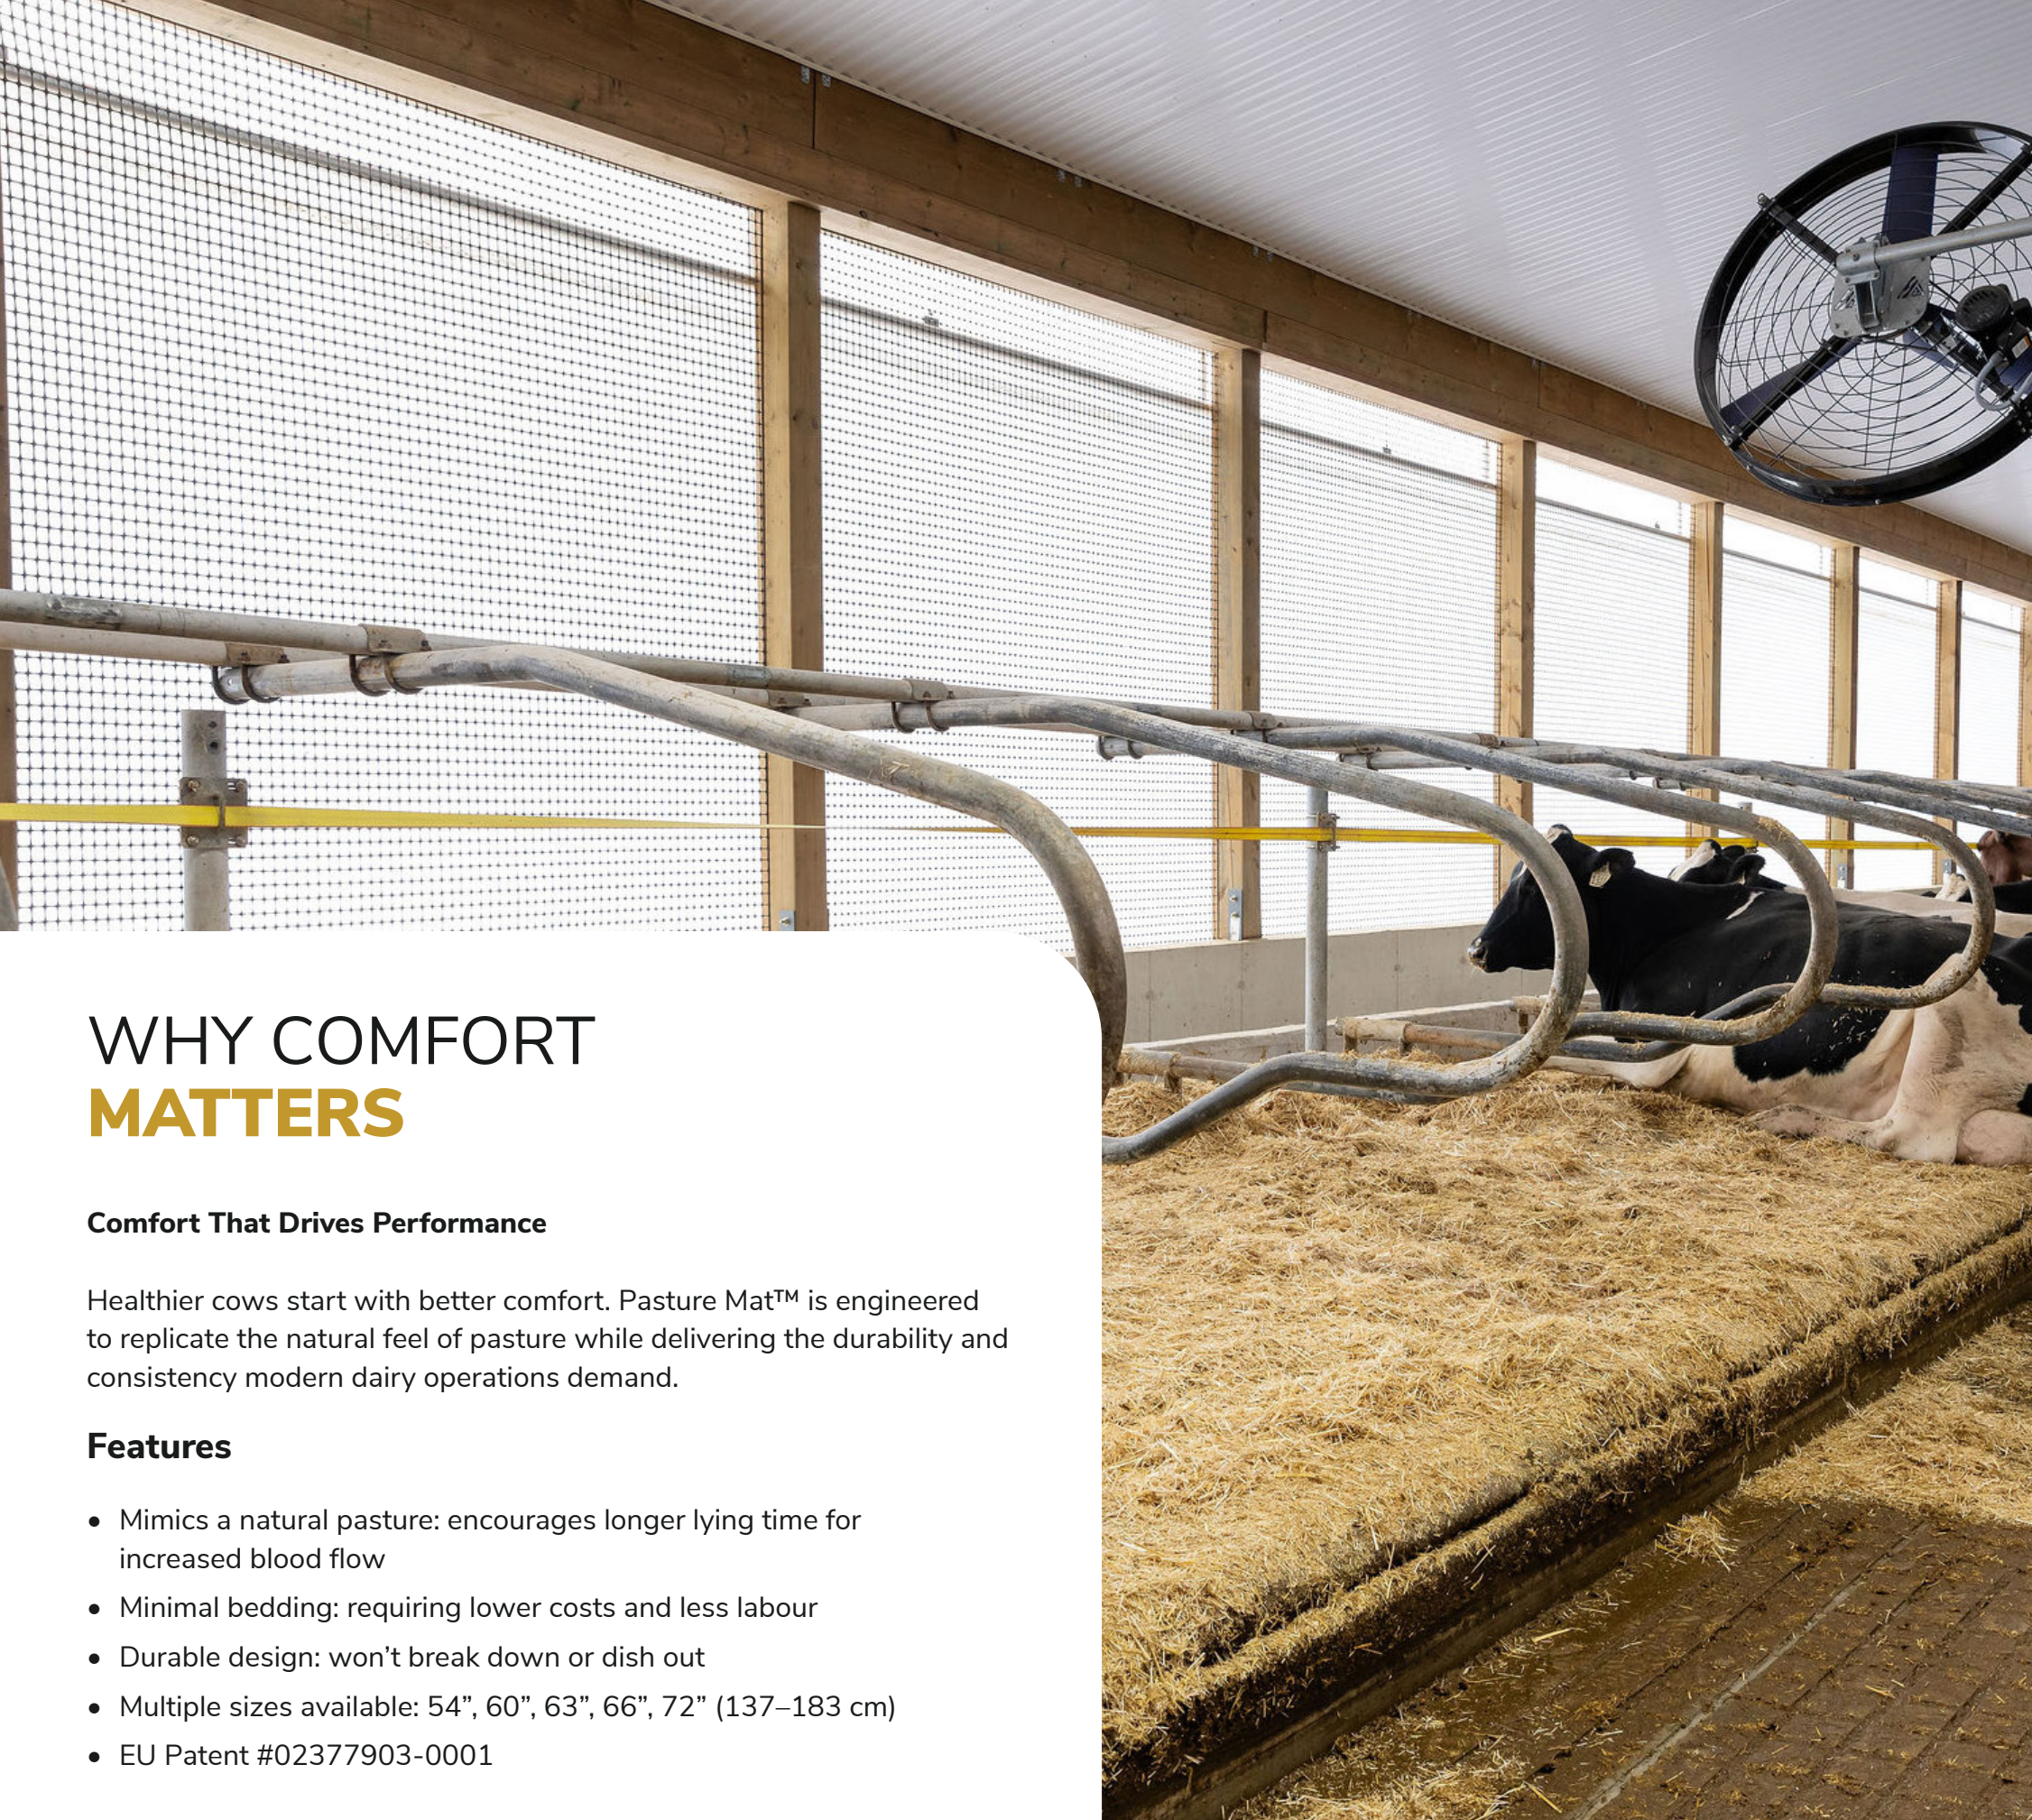

Promat's Patented HRC, GRC or CS covers along with our solid rubber covers deliver industry-leading flexibility, footing, and stability. All providing an easy-to-clean surface, long-life durability and unsurpassed comfort for your cows.

04

POLY PILLOW™ (optional)

Recommended for all of Promat's stall systems: A specialised brisket locator used to help position cows correctly and comfortably and aids with cleaning. Compatible with all Promat's stall systems. Brisket locators are also available for brisket pipes.

WHY COMFORT MATTERS

Comfort That Drives Performance

Healthier cows start with better comfort. Pasture Mat™ is engineered to replicate the natural feel of pasture while delivering the durability and consistency modern dairy operations demand.

Features

- Mimics a natural pasture: encourages longer lying time for increased blood flow
- Minimal bedding: requiring lower costs and less labour
- Durable design: won't break down or dish out
- Multiple sizes available: 54", 60", 63", 66", 72" (137–183 cm)
- EU Patent #02377903-0001

PROVEN ROI FOR PRODUCERS

More comfort for cows. More value for producers.

Pasture Mat™ delivers long-term value through durability, reduced labour, and healthier cows. Built for both comfort and longevity, the system helps support herd productivity while lowering ongoing operational costs.

PRODUCER BENEFITS

- Additional lying time translates into higher yield
- Cleaner udders help reduce vet costs
- High-density foam ensures consistent comfort and longevity
- Reduced bedding costs with minimal bedding required
- Easy-to-clean surface helps reduce labour
- Durable construction designed to maintain shape and performance over time

COW COMFORT & HEALTH BENEFITS

- Designed to replicate the natural pasture
- Pressure-relieving foam promotes improved circulation
- Reduces hock sores by providing stable footing and allowing cows to get up and down easily
- Keeps udders cleaner through proper cow positioning
- Stable footing helps reduce slipping and joint injuries
- Helps reduce knee stress, hock injuries, and lameness

WHAT THE INDUSTRY IS SAYING

We are a 550 dairy cow operation and have been using Promat Pasture Mats for the majority of our herd. The cows are a lot more comfortable with the Pasture Mats since the loose rubber does not shift. It was a big improvement in productivity and cow life, in the area of 20% so that's very profitable. I don't know of any other mat that would be better than the Promat mats.

Louis Patenaude

Investing in cow comfort is easy and I've never met a farmer who regretted it. Cows reward you with more milk, more components, better efficiency... the return on investment (ROI) is enormous and priceless.

Dr. Nigel Cook, the Dairyland Initiative/School of Veterinary Medicine, University of Wisconsin – Madison
